Resume Objective

I am currently working as an AI Engineer. My target is to leverage the power of Data Science and AI Engineering, in order to create usefull tools for my company.

Work Experience

- **AI Engineer**

SECO Group, Brussels, Belgium (Sep 2025 – Present)

- **Data Scientist – European Commission DG-RTD**

Sword Group, Brussels, Belgium (Oct 2024 – Sep 2025)
In my current role, I support the Data team with various ongoing projects. I am leading a text classification project aimed at achieving optimal outcomes with minimal resources, utilizing pre-trained LLMs such as LLaMA, BERT, and other models from Hugging Face. Additionally, I am responsible for the creation of a reporting template, where the key challenge is gathering

business requirements and translating them into technical solutions. My day-to-day tasks also involve the development and maintenance of dashboards and using SQL for reporting purposes.

- **Business Intelligence Developer**

Eurobank Equities, Athens, Greece (Oct 2023 – Sep 2024)
As a BI Developer, I took charge of all Data Science and Analytics needs within the company. I was responsible for developing the Power BI environment from scratch and creating various dashboards for internal and external reporting. I regularly interacted with the CTO and CEO to help shape the future direction of the BI department. Additionally, I worked on numerous ad-hoc projects, such as Python automation scripts, market research, chatbot development, machine learning-based time-series anomaly detection, Power Automate workflows, Power Apps, customer segmentation, Docker containerization, and maintaining VBScript.

- **Business Intelligence Analyst**

Aksia LLC, Athens, Greece (Nov 2021 – Aug 2023)
In this role, my focus was on creating analytical solutions for internal use. I worked primarily with MS SQL, Power BI, and Power Automate. My responsibilities included creating financial performance and productivity KPIs, as well as maintaining and enhancing existing dashboards and reports. I was also responsible for developing unique, out-of-the-box visualizations and ad-hoc projects that required Python scripts and web scraping for data extraction.

- **SAP Financial Consultant**

Real Consulting, Athens, Greece (Nov 2020 – Nov 2021)

Education

MSc in Data Science – Athens University of Economics and Business, Sep 2022 - Jun 2024

Programm Overview

BSc in Finance – University of Piraeus, Oct 2014 - Sep 2020
