### Resume Objective

I am currently working as a Data Scientist. My target is to combine the knowledge from my two degrees and apply Data Science, Business Intelligence and Machine Learning to create value for the company I work.

### Work Experience

- **Data Scientist – European Commission DG-RTD**

**Sword Group**, Brussels, Belgium (Oct 2024 – Present)

In my current role, I support the Data team with various ongoing projects. I am leading a text classification project aimed at achieving optimal outcomes with minimal resources, utilizing pre-trained LLMs such as LLaMA, BERT, and other models from Hugging Face. Additionally, I am responsible for the creation of a reporting template, where the key challenge is gathering business requirements and translating them into technical solutions. My day-to-day tasks also involve the development and maintenance of dashboards and using SQL for reporting purposes.

- **Business Intelligence Developer**

**Eurobank Equities**, Athens, Greece (Oct 2023 – Sep 2024)

As a BI Developer, I took charge of all Data Science and Analytics needs within the company. I was responsible for developing the Power BI environment from scratch and creating various dashboards for internal and external reporting. I regularly interacted with the CTO and CEO to help shape the future direction of the BI department. Additionally, I worked on numerous ad-hoc projects, such as Python automation scripts, market research, chatbot development, machine learning-based time-series anomaly detection, Power Automate workflows, Power Apps, customer segmentation, Docker containerization, and maintaining VBScript.

- **Business Intelligence Analyst**

**Aksia LLC**, Athens, Greece (Jan 2023 – Aug 2023)

In this role, my focus was on creating analytical solutions for internal use. I worked primarily with MS SQL, Power BI, and Power Automate. My responsibilities included creating financial performance and productivity KPIs, as well as maintaining and enhancing existing dashboards and reports. I was also responsible for developing unique, out-of-the-box visualizations and ad-hoc projects that required Python scripts and web scraping for data extraction.

- **Operations Analyst**

**Aksia LLC**, Athens, Greece (Nov 2021 – Dec 2022)

I managed a portfolio of 130 client funds, including creating digital backups, reviewing financial statements, and analyzing IRR and pro-rata levels. I was also responsible for overseeing daily cash flow, capital financial statements, and custodial bank activities. A significant part of my role involved automating various financial processes using Microsoft Excel Macros.

- **SAP Financial Consultant**

**Real Consulting**, Athens, Greece (Nov 2020 – Nov 2021)

## Education

**MSc in Data Science** – Athens University of Economics and Business, Sep 2022 - Jun 2024

[Programm Overview](#)

**BSc in Finance** – University of Piraeus, Oct 2014 - Sep 2020

## Skills

|                                   |           |
|-----------------------------------|-----------|
| Python                            | ● ● ● ● ● |
| Machine Learning                  | ● ● ● ● ● |
| Neural Networks (Text, Image, TS) | ● ● ● ● ● |
| R                                 | ● ● ● ○ ○ |
| SQL                               | ● ● ● ● ● |
| Power BI (Power Query, DAX)       | ● ● ● ● ● |
| Apache Spark / PySpark            | ● ● ● ○ ○ |
| Docker                            | ● ● ● ○ ○ |
| FastAPI                           | ● ● ● ○ ○ |
| VBScript                          | ● ● ● ○ ○ |
| Regression, CLS, Clustering       | ● ● ● ● ● |

## Projects

**Anomaly Detection with Financial Application**

**Fine-tune LLaMA 3.2-3B Instruct for Text Classification** – [Github - View](#)

**RAG Application for PDF Files** – [Github - View](#)

**Collaborative Filtering** – [Github - View](#)

**Topic Modelling - Sentiment Analysis**

**Fine-tuning BERT for Greek Text Classification** – [Github - View](#)

**Recommender systems - Customer Segmentation (Docker - FastAPI)** – [Github - View](#)

**Graph & Text Classification for URLs** – [Github - View](#)

**Abnormality Detection in bone X-Rays (Mura Dataset - Image CLS)** – [Github - View](#)

## Certifications

**IBM Data Analyst Professional Certificate, 2023** – [View](#)

**PL-300 Microsoft Power BI Data Analyst, 2024 – [View](#)**

**Azure Machine Learning & MLOps, 2025 – [View](#)**
